Walt Disney always loved to entertain people. Often it got him into trouble. Once he painted pictures with tar on the side of his family's white house. His family was poor, and the happiest time of his childhood was spent living on a farm in Missouri. His affection for small-town life is reflected in Disneyland Main Streets around the world. With black-and-white illustrations throughout, this biography reveals the man behind the magic. This book is not authorized, licensed or endorsed by the Walt Disney Company or any affiliate.

Placing theme parks from the United States, Europe and Asia in a comparative, multidisciplinary framework, this fascinating book argues that these fantasy environments are an extreme example of the totalization of public space. By illuminating the relationship between theme parks and public space, the book offers an insight into the ethos, design and expectations of public space in the twenty-first century.

In this fascinating new book, Africa Taylor encourages an exciting paradigmatic shift in the ways in which childhood and nature are conceived and pedagogically deployed, and invites readers to critically reassess the naturalist childhood discourses that are rife within popular culture and early years education. Through adopting a common worlds framework, Reconfiguring the Natures of Childhood generates a number of complex and inclusive ways of seeing and representing the early years. It recasts childhood as: messy and implicated rather than pure and innocent; situated and differentiated rather than decontextualized and universal; entangled within real world relations rather than protected in a separate space. Throughout the book, the author follows an intelligent and innovative line of thought which challenges many pre-existing ideas about childhood. Drawing upon cross-disciplinary perspectives, and with international relevance, this book makes an important contribution to the field of childhood studies and early childhood education, and will be a valuable resource for scholars, postgraduate students and higher education teachers.
