The edition of the estimates of the lenses for the 2017-2018 biennium contains 2900 prices of lenses produced and marketed from the beginning of the twentieth century and the first years of the millennium. Compared to previous editions, there are several new features: +700 new models + Buying Guide + Guide to the meaning of the general abbreviations and those used by the most famous brands. Quotes are presented in euro in a range with the details of the minimum and maximum value. They are provided for each lens the following data: 1) Model and other useful element identification 2) The focal length of the lens 3) The maximum aperture of the lens iris (indicated with the international number f /) 4) the type of lens mount 5) the estimate. The book is ordered alphabetically by manufacturer name. Each table can be reached with one click directly from the index. The quotations come from a long research of the Italian market offers, European and American. They were collected tens of millions of data that were then processed by a program created on purpose in order to have an overall average estimate. The book, along with the one dedicated to the cameras estimates, remains a valuable aid and a reference point for antique dealers, collectors, amateur photographers and camera retailers vintage or antique. The book is a convenient format that you can carry in your pocket for quick reference.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.
